

## Key Points

*Create the world around you in a team-based, industry-leading environment that is rich with opportunity*

Keytronic creates the products that drive our world while providing an innovative workplace with deep camaraderie, compelling product diversity, and the resources to build your career.

**Product Diversity:** Create the world around you. At Keytronic, you'll be working with a diverse product line and see the tangible impacts of the products you create. Play a role in creating everything from children's toys to complex medical devices.

**Executive Team Access:** Here, you'll have access to a first-rate executive team and industry-leading specialists who will provide the assistance and mentoring that will help you reach your career goals.

**Fast-Paced, Dynamic Work Setting:** Do something different every day. We move at the speed of innovation.

**On-The-Job Learning:** Work alongside industry-leading professionals and engineers, participate in in-house trainings, and receive reimbursements for certifications.

**Team Environment:** Feel encouraged and supported. You'll always have a strong team to back you up, so you can work with confidence.
